

DIALOGUE AGREEMENTS

- Listen carefully without interrupting.
- Make room for everyone in the conversation.
- Strive to understand each other – what people are saying *and* meaning.
- Talk from personal experience:
Avoid accusations or questioning others' motives
- Don't repeat what others say here.
Fine to share your experience in general.
- Keep your focus on the community and how we can improve civil discourse,
not on city leaders/elected officials.
- Pass, or pass for now.
